Jupiter shall emerge, be patient, watch again
another night, the Pleiades shall emerge,
They are immortal, all those stars both silvery and
golden shall shine out again.
The great stars and the little ones shall shine
out again, they endure,
The vast immortal suns and the long-enduring
pensive moons shall again shine.

—Walt Whitman, “On the Beach at Night,”
Year of Meteors (1859–1860)

Contents

Introduction: Tools of the Astronomer 1

- Limitations of Early Astronomers 2
- An Astronomical Revolution 2
- Telescope Evolution and Accessories 4

1 ★ The Many Satellites of Earth 7

- A Short History of the Early Space Age 8
 - ACTIVITY 1-1. Observing Satellites in Low Earth Orbit 8
- Orbits and Conic Sections 9
- Acceleration, Mass, and Force 10
- Gravity and Orbits 11
 - ACTIVITY 1-2. Estimating the Velocity of a Satellite in LEO 12
 - ACTIVITY 1-3. Can You See Any Detail on a Large Satellite in LEO? 13
- Geosynchronous Orbits 14
- Other Satellite Observations 14

2 ★ Dust Grains from Heaven 17

- Types of Meteors 19
- The Origin of Meteors 19
- Observing Meteors 20
 - ACTIVITY 2-1. Preparing Finder Charts for a Meteor Shower 20
 - ACTIVITY 2-2. Meteor-Observing Party 22
 - ACTIVITY 2-3. Estimating Meteor Track Length 23
- Meteors, Meteorites, and Life 24

3 ★ The Moon 25

- Physical Characteristics and Motions of the Moon 27
 - ACTIVITY 3-1. Observing the Eccentricity of the Moon's Orbit 27

The Moon's Phases	28
ACTIVITY 3-2. Keeping Track of Lunar and Solar Motions	29
Moon Features	29
ACTIVITY 3-3. Simulating Crater Formation	32
ACTIVITY 3-4. The Rays of Copernicus	32
ACTIVITY 3-5. The Central Peak of Tycho	34
ACTIVITY 3-6. The Mountains near Schickard	34
ACTIVITY 3-7. Masking Your Telescope's Aperture	34
Eclipses of the Moon and the Sun	35
Lunar Occultations	36
ACTIVITY 3-8. Observing Lunar Occultations	37
The Moon and Earth's Tides	37
ACTIVITY 3-9. Observing the Moon's Effect on the Tides	38
The Astronaut's Moon	38

4 ★ Comets 41

Comets in Myth and History	42
Visual Aspects of Comets	43
ACTIVITY 4-1. Sketching a Comet As Viewed through Your Telescope	43
ACTIVITY 4-2. Estimating the Size of a Comet's Coma	45
ACTIVITY 4-3. Keeping Track of a Comet's Progress	46
ACTIVITY 4-4. Observing Changes in a Comet's Tail	47
Where Do Comets Come From?	47
ACTIVITY 4-5. Observing Stellar Occultations by Comets	48
Comets and the Solar System's Evolution	49
Comet Exploration	49
ACTIVITY 4-6. Comet Viewing with Color Filters	50

5 ★ The Sun 51

The Visible Sun	52
Observing the Sun	54
ACTIVITY 5-1. The Sun's Spectrum	55
The Solar Interior	55
The Active Sun and the Earth	57
ACTIVITY 5-2. Using Sunspot Observations to Determine Solar Rotation	57
ACTIVITY 5-3. Monitoring Solar Activity	58
Solar Energy	59
The Sun's Future	60

6 ★ The Planets 61

The Planets in History	62
ACTIVITY 6-1. A Scale Model of Solar-System Distances and Planet Sizes	64
Types of Planets	65
Viewing the Planets	65
Mercury	67
ACTIVITY 6-2. Observing Mercury	67
Venus	67
ACTIVITY 6-3. Observing the Atmosphere of Venus	69
ACTIVITY 6-4. Observing Venus's Phases and Changes in Size	69
Mars	70
ACTIVITY 6-5. Coordinated Mars Observations	71
ACTIVITY 6-6. Atmospheric Variation and Mars's Canals	72
Jupiter	73
ACTIVITY 6-7. Observing the Jovian Moons with a Reticle Eyepiece	74
ACTIVITY 6-8. Identifying the Large Moons of Jupiter by Brightness	75
ACTIVITY 6-9. Filter and Reticle Observations of Jupiter's Cloud Bands and the Great Red Spot	76
Saturn	76
ACTIVITY 6-10. Observing and Estimating the Size of Saturn's Rings	77
ACTIVITY 6-11. Observing Saturn through Color Filters	78
Uranus	78
Neptune	79
Pluto	79

7 ★ The Stars 81

The Variety of Stars	82
The Significance of Star Colors	83
Binary and Multiple Stars	85
ACTIVITY 7-1. Observing Some Colorful Binary Stars	86
Mizar and Alcor	86
Rigel	87
Albireo	88
Castor	88
ACTIVITY 7-2. Reticle Observations of Binary Stars	89
ACTIVITY 7-3. Color-Filter Observations of Binary Stars	89
Variable Stars	90

Deep-Sky Objects	90	
ACTIVITY 7-4. Observing M42 through Color Filters	90	
ACTIVITY 7-5. Counting the Pleiades	91	
ACTIVITY 7-6. The Milky Way Galaxy and M31, the Great Spiral Galaxy in Andromeda	92	
Appendix A	A Note about Measurement	95
Appendix B	How to Use a Reticle Eyepiece	97
Appendix C	Lunar and Solar Eclipse Table	99
Appendix D	Planet Data Table	101
Appendix E	Seasonal Finder Charts	103
	Reading List: To Dig Deeper	107
	Glossary	109
	Index	115
